### EDUCATION

#### Bachelor in Computer and Software Engineering

Technological Institute of Western Macedonia. Specialization in Network Engineering (2022)

Relevant Coursework: Network Infrastructure, Software Development, Database Systems

### CERTIFICATIONS

- The Ultimate React Course 2024: React, Next.js, Redux & More, Jonas Schmedtmann (2024)**
- The Web Developer Bootcamp, Colt Steele (2024)**
- ASPAITE CERTIFICATION: Educating minors and adults on computer engineering and informatics**

### SKILLS

#### FrontEnd Development:

- JavaScript, TypeScript
- HTML5, CSS3, Sass
- React.js, Redux, Zustand

#### UI Libraries:

Tailwind CSS, Material-UI, Bootstrap

#### Backend and API Integration

- RESTful APIs, Axios, Fetch
- Firebase (Authentication, Firestore)

#### Version Control & Tools

- Git, GitHub, npm

### LANGUAGES

- Greek-Native
- English-Full Professional

### VOLUNTEERING

Engaged in non-governmental organization initiatives to assist the migrants who were located in hotspots across the country through the coordination of clothing and food collection as well as distribution efforts.

### WORK EXPERIENCE

#### Highlighted Projects:

##### Blog Website:

*Technologies: React.js, TailwindCSS, Firebase*

- Developed a dynamic web application enabling users to register, log in, and manage blog posts with CRUD functionality.
- Implemented responsive design with TailwindCSS and a dark/light mode toggle for enhanced user experience.
- Integrated Firebase for user authentication and data storage.

##### Recipe Finder:

*Technologies: React.js, TailwindCSS, Redux, Edamam API*

- Built a user-friendly web app for discovering recipes with search and browsing capabilities.
- Utilized Redux for state management and integrated Edamam API for dynamic recipe data.
- Ensured responsive design with TailwindCSS for seamless cross-device compatibility.

##### Simple E-commerce Shop:

*Technologies: React.js, TailwindCSS*

- Created a basic e-commerce platform with product browsing, filtering, and detailed product views.
- Designed a responsive and intuitive UI using TailwindCSS.

##### Weather App

*Technologies: React, TailwindCSS, Leaflet, OpenWeather API*

- Developed a web application displaying real-time weather data with an interactive map interface.
- Integrated OpenWeather API for weather information and Leaflet for map visualization.
- Styled with TailwindCSS for a clean, responsive design

##### Bartender / Bar Manager

**Naok Azur, Bristol, Gialos / 2018 - 2024**

- Led a team of bar staff, overseeing training, operations, and inventory management
- Oversaw day-to-day operations of the bar, including night-time events.
- Demonstrated strong organizational and problem-solving skills in a fast-paced environment.
- Enhanced customer satisfaction through excellent service and creative cocktail development.

##### Network Technician (Internship)

**OTE / 2017**

- Designed and installed communication networks, including wiring and wireless infrastructure.
- Troubleshoot network issues and collaborated with subcontractors to ensure efficient operations.
- Contributed to system upgrades and process improvements.
