WORK EXPERIENCE

DISTEMICHA P.C.   JAN 2025 - JUN 2025
React / React Native Developer

- Developed cross-platform applications using React and React Native based on provided mockups and design specifications.
- Collaborated with backend developers to integrate RESTful APIs.
- Maintained UI/UX consistency across different platforms to ensure a seamless user experience.
- Used Git version control and managed commits through GitHub and GitLab repositories.

Naok Azur, Bristol, Gialos   JAN 2018 - DEC 2024
Bartender / Bar Manager

- Managed and trained bar staff, ensuring smooth daily operations.
- Organized events and oversaw inventory control.
- Delivered high-quality customer service in a fast-paced environment.
- Created custom cocktail menus and improved customer retention.

Hellenic Telecommunications Organization (OTE)   JAN 2017 - DEC 2017
Network Technician (Internship)

- Designed and installed communication networks (wired & wireless).
- Contributed to infrastructure upgrades and process optimization.
- Collaborated with subcontractors to ensure successful field operations.
- Diagnosed and resolved technical issues related to connectivity and performance.

HIGHLIGHTED PROJECTS

Fullstack CRM Application (React Native, Express.js, Prisma, MySQL)

- Developed a full-featured CRM mobile app for customer and contact management.
- Built a RESTful backend with Express.js and Prisma ORM (MySQL).
- Implemented authentication, full CRUD operations, and responsive UI in React Native.

Blog Website (React.js, TailwindCSS, Firebase)

- Created a blog platform with user registration, login, and blog management.
- Integrated Firebase for authentication and Firestore for real-time data storage.
- Designed responsive UI with dark/light mode using TailwindCSS.

Recipe Finder (React.js, TailwindCSS, Redux, Edamam API)

- Built a recipe search app using the Edamam API for dynamic data.
- Managed global state with Redux..
- Designed for cross-device use with TailwindCSS responsiveness.

Weather App (React.js, TailwindCSS, Leaflet, OpenWeather API)

- Developed an interactive weather app with live updates and a map interface.
- Used OpenWeather API for real-time weather and Leaflet for map visuals.
- Focused on clean, responsive UI with TailwindCSS.
